

ASSIGNMENT INTERACTIVE

INTERACTIVE SCENES

Will not be accepted for a grade after the due date. Must be on the server. Must open from your Portal Page.

Work needs to be on the school server and linked to portal page in order for you to get a grade

FILE NAME

Web Page: interactive.htm

Flash Movie: interactive.swf

DESIGN

Must adhere to the Principles of Interactive Design

You can only use text and abstract shapes (no representative drawings)

TEXT

Make sure that you have selected STATIC for all text

Each interface needs to have a title

MAIN FRAMES

Create three interconnected frames

NAVIGATION

Create a menu of three buttons, each connecting to one of the frames

Each button should have a rollover

All menu items must be clear and obvious

DIMENSIONS

Ratio- 16:9

COLORS

Need to be Web Smart (the hex number needs to be in pairs)

Background of Web Page needs to be Web Safe

ANIMATION

Animation needs to be included on each scene

All animation must be in a movieClip (do not put animation on the main frames)

Each of your three frames need to have a different movieClip

SERVER

Upload to school server as directed in class

Your Portal Page must contain a link to this project

ActionScript

All of the action script for the buttons needs to be on one frame.

In order to do this you must name each button in the property box.

Work with action on a button will not be accepted.

TEST

Upload the piece to the server

Test the piece to make sure that it works
